

La Persiana d'Acciaio

Persiana in acciaio, l'unica a lamelle orientabili realizzata con **sistema brevettato e certificato in classe 3**.

Rappresenta l'evoluzione in termini di estetica e design per le sue forme e per l'aspetto elegante e raffinato.

Ideale per appartamenti o immobili che necessitano di sicurezza e protezione, abbinata ad un elevato design.

ORIX
The Steel Shutter

Steel shutter, the only one with adjustable slats made with a patented system and class 3 certified. It represents the evolution in terms of aesthetics and design for its shapes and for its elegant and refined appearance. Ideal for apartments or buildings that need safety and protection, combined with a high design.

Technical data

ORIX

Scheda Tecnica

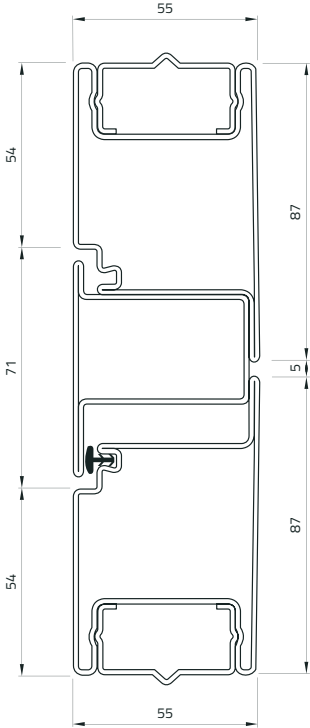

Utilizziamo un apposito sistema per realizzare una persiana in acciaio con lamelle orientabili e cinque brevetti certificati in classe 3. Rappresenta una vera evoluzione anche in termini di estetica e armonia delle forme: il disegno delle lamelle dona all’infisso finito un aspetto elegante e raffinato.

We use a special system to create a steel shutter with adjustable slats and five patents certified in class 3. It also represents a real evolution in terms of aesthetics and harmony of shapes: the design of the slats gives the finished window an elegant and refined appearance.
